Dear

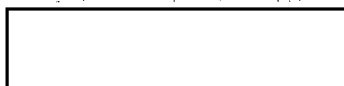

This is in response to your letter of February 1 to Admiral Turner concerning compensation and medical care for your disability.

The Office of Workers' Compensation of the Department of Labor administers compensation and medical benefits for Federal employees who are injured in the performance of duty. If you believe that you were performing official duties at the time of your accident on May 1, 1966, we will be glad to assist you in any way possible in filing a claim. Toward that end, we have enclosed copies of Form CA-1, which is to be completed by you, and a pamphlet, Form CA-11, containing additional information on this subject. Since the Form CA-1 also requires further completion of the official superior's report by the employing agency, it should be returned to us for forwarding to OWCP in the event that you decide to file a claim.

At your request, we have also reviewed your background and experience against our present personnel requirements. Unfortunately, we cannot utilize the qualifications you have made available to us. We regret that our response in this regard could not be favorable.

Sincerely,

STAT

Acting Director of Personnel
